100% Solution Dyed Acrylic
100% Acrílico Tintado en Masa

In Agora® fabrics, colour pigments impregnate the polymer dissolution before the fibre is formed. That way, the yarn is dyed to the core, conferring an excellent colour fastness and exceptional behaviour in outdoor conditions and in the presence of micro-organisms. The strong link between the carbon is not destroyed, so the colour does not change with the passage of time.

En los tejidos Agora®, los pigmentos impregnan la disolución del polimero antes de formar la fibra. De esa manera, el hilo está tintado hasta el núcleo, lo que le confiere una excelente solidez del color y un comportamiento excepcional en condiciones exteriores y en presencia de microorganismos. El fuerte vínculo entre el carbono no se destruye, por lo que el color no cambia con el paso del tiempo.

A close-up photograph of a vintage-style bicycle seat, which is a bright teal color with some wear and tear. Three square pillows are stacked on top of the seat. The top pillow is light blue with a small, repeating geometric pattern and a dark blue piping. The middle and bottom pillows are a reddish-pink color with a larger, repeating geometric pattern and dark blue piping. A light-colored rope is tied around the top pillow. The background is a blurred outdoor setting with green grass and a wooden fence.
