

Batyline | Marine Collection

Batyline | Marine Collection

Batyline Eden

Textile look: the textured yarn in the weave gives the fabric a soft touch and a textile aspect

Aspecto textil: el hilo texturizado de la trama confiere al tejido un tacto suave y un aspecto textil

Waterproof version: a protective film on the back of the fabric ensures a long lasting waterproof solution

Versión impermeable: un film protector en el reverso del tejido garantiza una impermeabilidad duradera

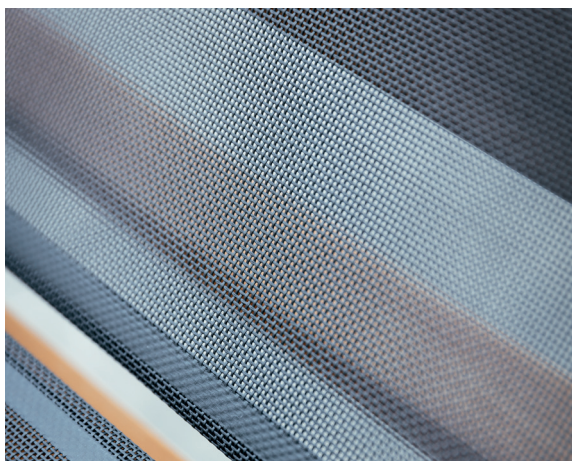

Batyline Elios

Softness and comfort: the flocced yarn in the weaving ensures the softness and comfort of the fabric

Suavidad y confort: el hilo flocado en el tejido garantiza la suavidad y confortabilidad en el mismo

Robust: the high-performance Batyline fabric with exceptional abrasion resistance properties (>50,000 Martindale cycles)

Robusto: el tejido Batyline de alto rendimiento con excepcionales propiedades de resistencia a la abrasión (>50 000 ciclos Martindale)

Batyline Iso

Smart: a weaving that ensures optimised placement and cutting in any direction in warp or weft

Inteligente: facilidad y optimización en la confección, pudiéndose cortar tanto en dirección urdimbre como en trama

Classic: the perfect mesh for under cushion on board

Clásico: la malla perfecta para los bajos de cojines

Batyline Lounge

Enduring: the elegance of a simple, classic design

Atemporal: la elegancia de un diseño sencillo y clásico

Robust: a high-performance Batyline fabric for extreme outdoor conditions

Robusto: un tejido Batyline de alto rendimiento para condiciones extremas a la intemperie

Batyline | Marine Collection

The Marine upholstery range presents the brand's high performance fabrics for yachting outdoor furniture. These fabrics have all the unique characteristics that today's boaters are increasingly looking for: a soft touch, a textile look and an excellent durability in all weather conditions.

La gama de tapicerías para la náutica presenta los tejidos de alto rendimiento de la marca para el mobiliario de exterior de los yates. Estos tejidos reúnen todas las características únicas que buscan cada vez más los actuales navegantes: un tacto suave, un aspecto textil y una excelente durabilidad en todas las condiciones meteorológicas.
