MAERLIN

Fabric with resin coating on one side, providing waterproofing exceeding 1000 mm of water column, and a finish that reduces stiffness to prevent crease marks. It is a tighter and more durable fabric with the highest thread density on the market, offering excellent dimensional stability. It does not deform. Very lightweight and breathable. Mold-resistant and easy to clean. Tejido con resinado por una de las caras que le otorga impermeabilidad superior a 1000 mm de columna de agua, y un acabado que reduce la rigidez del tejido y las marcas de los pliegues. Es un tejido más cerrado y resistente con la más alta densidad de hilos del mercado, lo que le confiere una excelente estabilidad dimensional. No se deforma. Muy ligero y transpirable. Resistente al moho y fácil de limpiar.
