BINDING NAUTIC

Sauleda’s bindings are a perfect ally in nautical environments due to their high resistance to sunlight and waterproofing. Their herringbone pattern is very adaptable regardless of the shape of the edge of the fabric where the trim is applied.

Las cintas de Sauleda son un aliado perfecto en entornos náuticos por su alta resistencia a la luz solar y su impermeabilidad. Su dibujo de espiga es muy adaptable sea cual sea la forma del extremo de la lona donde se aplique el remate.

BINDING PRO

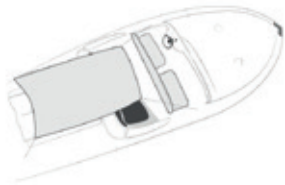

Innovation in bindings for nautical applications has found a unique model in Binding Pro. Made with Sauleda Masacril fabric, it has a unique structure and exceptional resistance to water and outdoor wear.

La innovación en cintas para aplicación náutica tiene en Binding Pro un modelo único en el mercado. Confeccionado con tejido Sauleda Masacril, posee una estructura única y una resistencia excepcional al agua y al desgaste a la intemperie.
